| Section 6 | Accidental Release Measures   |
|-----------|---|
|           | 6.1 Personal precautions, protective equipment and emergency procedures   |
|           | Wear respiratory protection. Avoid breathing vapours, mist or gas. Ensure adequate                              |
|           | ventilation. Evacuate personnel to safe areas.  |
|           | 6.2 Environmental precautions   |
|           | Prevent further leakage or spillage if safe to do so. Do not let product enter drains.                          |
|           | 6.3 Methods and materials for containment and cleaning up   |
|           | Soak up with inert absorbent material. Keep in suitable, closed containers for disposal.                        |
|           | 6.4 Reference to other sections   |
|           | For disposal see Section 13.  |
|           |   |
| Section 7 | Handling and Storage  |
|           | Handling and Storage<br>7.1 Precautions for safe handling   |
|           | Avoid contact with skin and eyes. Avoid inhalation of vapour or mist. Normal                                    |
|           | measures for preventive fire protection.  |
|           | 7.2 Conditions for safe storage, including any incompatibilities  |
|           |   |
|           | Store in cool place. Keep container tightly closed in a dry and well-ventilated place. Containers which         |
|           | are opened must be carefully resealed and kept upright to prevent leakage.                                      |
|           | Recommended Storage Temperature : On receipt store between 2-8°C  |
|           | 7.3 Specific end uses   |
|           | Apart from the uses mentioned in section 1.2 no other specific uses are stipulated.                             |
| ection 8  | Exposure Controls / Personal Protection   |
|           | 8.1 Control parameters  |
|           | Components with workplace control parameters  |
|           | 8.2 Exposure controls   |
|           | Appropriate engineering controls  |
|           | Avoid contact with skin, eyes and clothing. Wash hands before breaks and immediately after                      |
|           | handling the products.  |
|           | Personal protective equipment   |
|           | Hygiene measure   |
|           | Immediately change contaminated clothing. Apply preventive skin protection. Wash hands and face after           |
|           | working with the product.   |
|           | Eye/face protection   |
|           | Tightly fitting saftey goggles; Faceshield (8-inch minimum). Use equipment for eye protection tested and        |
|           | approved under appropriate government standards such as NIOSH (US) or EN 166 (EU).                              |
|           | Skin protection   |
|           | Handle with gloves. Gloves must be inspected prior to use. Use proper glove removal technique (without          |
|           | touching glove's outer surface) to avoid skin contact with this product. Dispose contaminated gloves after      |
|           | use in accordance with applicable laws and good laboratory practices. Wash and dry hands. The selected          |
|           | protective gloves have to satisfy the specifications of EU Directive  |
|           | 89/686/EEC and the standard EN 374 derived from it.   |
|           | Body protection   |
|           | Complete suit protecting against chemicals. The type of protective equipment must be selected according         |
|           | to the concentration and amount of the dangerous substance at the specific workplace. <b>Respiratory</b>        |
|           | protection  |
|           | Where risk assessment shows air-purifying respirators are appropriate use a full-face respirator with multi-    |
|           | purpose combination (US) or type ABEK (EN 14387) respirator cartridges as a backup to engineering controls      |
|           | If the respirator is the sole means of protection, use a full-face supplied air respirator. Use respirators and |
|           | components tested and approved under appropriate government standards such as NIOSH (US) or CEN (EU).           |
|           | Environment exposure controls   |
|           |   |
|           | Do not empty into drains.   |

|            | No data available   |  |  |
| Section 15 | Regulatory Information  |  |  |
|            | This safety datasheet complies with the requirements of Regulation (EC) No. 1907/2006.                                    |  |  |
|            | 15.1 Safety health and environment regulations/legislation specific for the substance or mixture                          |  |  |
|            | No data available   |  |  |
|            | 15.2 Chemical Safety Assessment   |  |  |
|            | No data available   |  |  |
|            |   |  |  |
| Section 16 | Other Information   |  |  |
|            | Text of H codes and classification mentioned in section 3   |  |  |
|            | H302 : Harmful if swallowed   |  |  |
|            | H315 : Causes skin irritation   |  |  |
|            | H317 : May cause an allergic skin reaction  |  |  |
|            | H319 : Causes serious eye irritation  |  |  |
|            | H334 : May cause allergy or asthma symptoms or breathing difficulties if inhaled  |  |  |
|            | H335 : May cause respiratory irritation   |  |  |
|            | Acute Tox.oral 4 : Acute toxicity, oral, Category 4   |  |  |
|            | Eye Irrit. 2A : Serious eye damage or eye irritation, Category 2A   |  |  |
|            | Resp. Sens. 1 : Sensitisation, respiratory, Category 1  |  |  |
|            | Skin Irrit. 2 : Skin corrosion or irritation, Category 2  |  |  |
|            | Skin Sens. 1 : Sensitisation, Skin, Category 1  |  |  |
|            | STOT SE 3 : Specific target organ toxicity, single exposure, Respiratory tract irritation, Category 3                     |  |  |
|            | Further Information   |  |  |
