

Material Safety Data Sheet

Name of the	Product		CATC Supplement
Code No.			MS 2235
Section 1	: Chemica	l Identification	
	Code No.	. :	MS 2235
	Name of	the Product :	CATC Supplement
	Produced	iby :	Central Drug House Pvt. Ltd.
	Address	:	7/28 Vardaan House, Darya Ganj, New Delhi (INDIA)
	Tel. No.	:	00 91 11 49404040
Section 2	Hazards I	dentification	
	2.1	Classification of the s	ubstance or mixture
		CLP Classification-R	egulation (EC) No. 1272/2008[EU-GHS/CLP]
		Skin corrosion or irri	itation, (Category 2), H315
		Serious eye damage	or eye irritation, (Category 2A), H319
		Acute toxicity, Oral,	(Category 2), H300
		Hazardous to the aq	uatic environment, long term hazard, (Category 1), H410
	2.2	Label elements	to Regulation (EC) No.1272/2008
		Lasening according	10 11 galacion (12) 110.12, 2/2000
			$\wedge \wedge$
		al a	
		GHS06	GHS07 GHS09
		Dieto	
		Pictogram	
		Signal word Da	nger
		Hazard Statement(s)	
		H315	Causes skin irritation
		H319	Causes serious eye irritation
		H300	Fatal if swallowed
		H410	Very toxic to aquatic life with long lasting effects
		Precautionary State	ement(s)
		P264	Wash hands thoroughly after handling. Wash skin thouroughly after handling.
		P280	Wear protective gloves/protective clothing/eye protection/face protection.
		P273	Avoid release to the environment.
		P302 + P352	IF ON SKIN: wash with plenty of soap and water.
		P301 + P310	IF SWALLOWED: Immediately call a POISON CENTER or doctor/physician.
		P305+P351+P338	IF IN EYES: Rinse cautiously with water for several minutes. Remove contact
			lenses, if present and easy to do. Continue rinsing.
		P337 + P313	IF eye irritation persists: Get medical advice/attention.
		P332 + P313	IF SKIN irritation occurs: Get medical advice/attention
	2.3	Other Hazards	
		None	

ection 3	Composition/Information On Ingre- 3.1 Mixture	uiciit3				
	Component	Classification	Concentration			
	Sodium carbonate					
	CAS No. : 497-19-8 EC No. : 207-838-8 Index-No : 011-005-00-2	As Per EC Regulation 1272/2008 Eye Irrit. 2A H319	>=80 - <=90%			
	Component	Component	Concentration			
	2,3,5 Triphenyltetrazolium chlo	oride				
	CAS No. : 298-96-4 EC No. : 206-071-6	As Per EC Regulation 1272/2008 Skin Irrit. 2; Eye Irrit. 2A; STOT SE 3 H315; H319; H335	>=1 - <=10%			
	Component	Component	Concentration			
	Sodium azide					
	CAS No. : 26628-22-8	As Per EC Regulation	>=10 - <=20%			
	Refer Section 16 for complete s	Acute Tox.oral. 2; Acute Tox. 1; Aquatic Acute 1; Aquatic Chronic 1 H300; H310; H400; H410				
Section 4	First - Aid Measures					
	 4.1 Description of first aid measures General advice Consult a physician. Show this safety data sheet to the doctor in attendance. If inhaled If breathed in, move person into fresh air. If not breathing, give artificial respiration. Consult a physician. In case of skin contact Wash with plenty of soap and water. Consult a physician. In case of eye contact Rinse immediately with plenty of water for at least 15 minutes. Consult a physician. If swallowed Never give anything by mouth to an unconscious person. Rinse mouth with water. Consult a physician. 4.2 Most important symptoms and effects, both acute and delayed No data available. 					
		e medical attention and special treatment needed				

Castian 5		_
Section 5	Fire Fighting Measures 5.1 Extinguishing media	
	Suitable extinguishing media	
	Use water spray, alcohol-resistant foam, dry chemical or carbon dioxide.	
	Unsuitable extinguishing media No data available.	
	5.2 Special hazards arising from the substance or mixture	
	Nature of decomposition products not known.5.3Precautions for fire-fighters	
	Wear self contained breathing apparatus for fire fighting if necessary	
	5.4 Further information No data available	
Section 6	Accidental Release Measures	_
	6.1 Personal precautions, protective equipment and emergency procedures Wear respiratory protection. Avoid breathing vapours, mist or gas. Ensure adequate	
	ventilation. Evacuate personnel to safe areas. 6.2 Environmental precautions	
	6.2 Environmental precautionsPrevent further leakage or spillage if safe to do so. Do not let product enter drains.	
	6.3 Methods and materials for containment and cleaning up	
	Soak up with inert absorbent material. Keep in suitable, closed containers for disposal.	
	6.4 Reference to other sections For disposal see Section 13.	
Section 7	Handling and Storage	
	7.1 Precautions for safe handling Avoid contact with skin and eyes. Avoid inhalation of vapour or mist. Normal measures	
	for preventive fire protection.	
	7.2 Conditions for safe storage, including any incompatibilities	
	Store in cool place. Keep container tightly closed in a dry and well-ventilated place. Containers which	
	are opened must be carefully resealed and kept upright to prevent leakage. <i>Recommended Storage Temperature</i> : On receipt store between 2-8°C	
	7.3 Specific end uses	
	Apart from the uses mentioned in section 1.2 no other specific uses are stipulated.	

Section 8	Exposur	e Controls / Personal Protection		
	8.1	Control parameters		
		Components with workplace control	parameters	
	8.2	Exposure controls		
		Appropriate engineering controls		
		Avoid contact with skin, eyes and clot	hing. Wash hands before breaks and immediately after handling	
		the products.		
		Personal protective equipment		
		Hygiene measure		
			othing. Apply preventive skin protection. Wash hands and face after	
		working with the product. <i>Eye/face protection</i>		
			ld (8-inch minimum). Use equipment for eye protection tested and	
			ent standards such as NIOSH (US) or EN 166 (EU).	
		Skin protection		
			spected prior to use. Use proper glove removal technique (without	
			id skin contact with this product. Dispose contaminated gloves after use	
			d good laboratory practices. Wash and dry hands. The selected protective	
		gloves have to satisfy the specification		
		89/686/EEC and the standard EN 374		
		Body protection		
			nicals. The type of protective equipment must be selected according to	
			dangerous substance at the specific workplace.	
		Respiratory protection		
			fying respirators are appropriate use a full-face respirator with multi-	
			EK (EN 14387) respirator cartridges as a backup to engineering controls. If	
			stection, use a full-face supplied air respirator. Use respirators and	
		components tested and approved unc	ler appropriate government standards such as NIOSH (US) or CEN (EU).	
		Environment exposure controls		
		Do not empty into drains.		
Section 9	Physical and Chemical Properties 9.1 Information on basic physical and chemical properties			
	9.1	information on basic physical and cher	nical properties	
		Appearance	White homogeneous powder	
		Odour	No data available	
		Odour Threshold	No data available	
		рН	No data available	
		Melting/freezing point	No data available	
		Initial boiling point and boiling range	No data available	
		Flash point	No data available	
		Flammability (Solid, gas)	No data available	
		Vapour pressure	No data available	
		Relative density	No data available	
		Water Solubility	No data available	
		Partition coefficient: n-octanol/water	No data available	
		Autoignition Temperature	No data available	
			No data available	
		Viscosity Explosive properties		
	1	Explosive properties	No data available	
			No. Jaka availabla	
		Oxidizing properties	No data available	
			No data available No data available No data available	

[]	
	9.2 Other safety information No data available
Section 10	Stability and Reactivity
_	10.1 Reactivity
	No data available
	10.2 Chemical stability
	No data available 10.3 Possibility of hazardous reactions
	No data available
	10.4 Conditions to avoid No data available
	10.5 Incompatible materials
	No data available
	10.6 Hazardous decomposition products
	Other Decomposition products not known.
Section 11	Toxicological Information
	11.1 Information on toxicological effects
	Acute toxicity
	No data available
	Skin corrosion/irritation
	Mixture may cause skin irritation.
	Serious eye damage/eye irritation
	Mixture may cause eye irritation. <i>Respiratory or skin sensitisation</i>
	Mixture may cause skin sensitisation
	Germ cell mutagenicity
	No data available
	Carcinogenicity
	IARC: No component of this product present at levels greater than or equal to 0.1% is identified as probable,
	possible or confirmed human carcinogen by IARC.
	Specific target organ toxicity- single exposure No data available
	Specific target organ toxicity - repeated exposure
	No data available
	Aspiration hazard
	No data available
	Potential Health Effects
	Potential Health Effects Inhalation REFER SECTION 2

 12.1 Toxicity Components: Sodium azide Toxicity to fish LC50 Lepomis macrochirus (Bluegil sunfish): 0.7 mg/l; 96 h Toxicity to Daphnia pulex (Water flea): 4.2 mg/l; 48 h Toxicity to algae IC50 Daphnia pulex (Water flea): 4.2 mg/l; 48 h Toxicity to algae IC50 mixed culture of green algae: 272 mg/l Toxicity to bacteria EC50 Photobacterium phosphoreum: 38.5 mg/l 12.2 Persistence and degradability No data available 2.3 Bioaccumulative potential No data available 2.4 Mobility in soil No data available 12.5 PBT and VPVB assessment PBT/VPVB assessment was not conducted as chemical safety assessment is not required. 12.6 Other adverse effects No data available 		
 12.1 Toxicity Components: Sodium azide Toxicity to fish LC50 Lepomis macrochirus (Bluegil sunfish): 0.7 mg/l; 96 h Toxicity to Daphnia pulex (Water flea): 4.2 mg/l; 48 h Toxicity to algae IC50 Daphnia pulex (Water flea): 4.2 mg/l; 48 h Toxicity to algae IC50 mixed culture of green algae: 272 mg/l Toxicity to bacteria EC50 Photobacterium phosphoreum: 38.5 mg/l 12.2 Persistence and degradability No data available 2.3 Bioaccumulative potential No data available 2.4 Mobility in soil No data available 12.5 PBT and VPVB assessment PBT/VPVB assessment was not conducted as chemical safety assessment is not required. 12.6 Other adverse effects No data available 		
 12.1 Toxicity Components: Sodium azide Toxicity to fish LC50 Lepomis macrochirus (Bluegil sunfish): 0.7 mg/l; 96 h Toxicity to Daphnia pulex (Water flea): 4.2 mg/l; 48 h Toxicity to algae IC50 Daphnia pulex (Water flea): 4.2 mg/l; 48 h Toxicity to algae IC50 mixed culture of green algae: 272 mg/l Toxicity to bacteria EC50 Photobacterium phosphoreum: 38.5 mg/l 12.2 Persistence and degradability No data available 2.3 Bioaccumulative potential No data available 2.4 Mobility in soil No data available 12.5 PBT and VPVB assessment PBT/VPVB assessment was not conducted as chemical safety assessment is not required. 12.6 Other adverse effects No data available 	Section 12	Feelenisel Information
Components: Sodium azide Toxicity to fish LC50 Lepomis macrochirus (Bluegil sunfish): 0.7 mg/l; 96 h Toxicity to Daphnia EC50 Daphnia pulex (Water flea): 4.2 mg/l; 48 h Toxicity to algae IC50 mixed culture of green algae: 272 mg/l Toxicity to bacteria EC50 Photobacterium phosphoreum: 38.5 mg/l 12.2 Persistence and degradability No data available 2.3 Bioaccumulative potential No data available 2.4 Mobility in soil No data available 12.5 PBT and vPVB assessment PBT/VPVB assessment was not conducted as chemical safety assessment is not required. 12.6 Other adverse effects No data available	Section 12	
Sodium azide Toxicity to fish LC50 Lepomis macrochirus (Bluegil sunfish): 0.7 mg/l; 96 h Toxicity to Daphnia EC50 Daphnia pulex (Water flea): 4.2 mg/l; 48 h Toxicity to algae IC50 mixed culture of green algae: 272 mg/l Toxicity to bacteria EC50 Photobacterium phosphoreum: 38.5 mg/l 12.2 Persistence and degradability No data available 2.3 Bioaccumulative potential No data available 2.4 Mobility in soil No data available 12.5 PBT and vPVB assessment PBT/VPVB assessment was not conducted as chemical safety assessment is not required. 12.6 Other adverse effects No data available		
Toxicity to fish LC50 Lepomis macrochirus (Bluegil sunfish): 0.7 mg/l; 96 h Toxicity to Daphnia EC50 Daphnia pulex (Water flea): 4.2 mg/l; 48 h Toxicity to algae IC50 mixed culture of green algae: 272 mg/l Toxicity to bacteria EC50 Photobacterium phosphoreum: 38.5 mg/l 12.2 Persistence and degradability No data available 2.3 Bioaccumulative potential No data available 2.4 Mobility in soil No data available 12.5 PBT and vPvB assessment PBT/vPvB assessment was not conducted as chemical safety assessment is not required. 12.6 Other adverse effects No data available		Components:
LC50 Lepomis macrochirus (Bluegil sunfish): 0.7 mg/l; 96 h Toxicity to Daphnia EC50 Daphnia pulex (Water flea): 4.2 mg/l; 48 h Toxicity to algae IC50 mixed culture of green algae: 272 mg/l Toxicity to bacteria EC50 Photobacterium phosphoreum: 38.5 mg/l 12.2 Persistence and degradability No data available 2.3 Bioaccumulative potential No data available 2.4 Mobility in soil No data available 12.5 PBT and vPvB assessment PBT/vPvB assessment was not conducted as chemical safety assessment is not required. 12.6 Other adverse effects No data available		Sodium azide
LC50 Lepomis macrochirus (Bluegil sunfish): 0.7 mg/l; 96 h Toxicity to Daphnia EC50 Daphnia pulex (Water flea): 4.2 mg/l; 48 h Toxicity to algae IC50 mixed culture of green algae: 272 mg/l Toxicity to bacteria EC50 Photobacterium phosphoreum: 38.5 mg/l 12.2 Persistence and degradability No data available 2.3 Bioaccumulative potential No data available 2.4 Mobility in soil No data available 12.5 PBT and vPvB assessment PBT/vPvB assessment was not conducted as chemical safety assessment is not required. 12.6 Other adverse effects No data available		Toxicity to fish
Toxicity to Daphnia EC50 Daphnia pulex (Water flea): 4.2 mg/l; 48 h Toxicity to algae IC50 mixed culture of green algae: 272 mg/l Toxicity to bacteria EC50 Photobacterium phosphoreum: 38.5 mg/l 12.2 Persistence and degradability No data available 2.3 Bioaccumulative potential No data available 2.4 Mobility in soil No data available 12.5 PBT and vPVB assessment PBT/vPvB assessment was not conducted as chemical safety assessment is not required. 12.6 Other adverse effects No data available		
EC50 Daphnia pulex (Water flea): 4.2 mg/l; 48 h Toxicity to algae IC50 mixed culture of green algae: 272 mg/l Toxicity to bacteria EC50 Photobacterium phosphoreum: 38.5 mg/l 12.2 Persistence and degradability No data available 2.3 Bioaccumulative potential No data available 2.4 Mobility in soil No data available 12.5 PBT and vPVB assessment PBT/vPvB assessment was not conducted as chemical safety assessment is not required. 12.6 Other adverse effects No data available		
Toxicity to algae IC50 mixed culture of green algae: 272 mg/l Toxicity to bacteria EC50 Photobacterium phosphoreum: 38.5 mg/l 12.2 Persistence and degradability No data available 2.3 Bioaccumulative potential No data available 2.4 Mobility in soil No data available 12.5 PBT and vPvB assessment PBT/vPvB assessment was not conducted as chemical safety assessment is not required. 12.6 Other adverse effects No data available		
IC50 mixed culture of green algae: 272 mg/l Toxicity to bacteria EC50 Photobacterium phosphoreum: 38.5 mg/l 12.2 Persistence and degradability No data available 2.3 Bioaccumulative potential No data available 2.4 Mobility in soil No data available 12.5 PBT and vPvB assessment PBT/vPvB assessment was not conducted as chemical safety assessment is not required. 12.6 Other adverse effects No data available		
Toxicity to bacteria EC50 Photobacterium phosphoreum: 38.5 mg/l 12.2 Persistence and degradability No data available 2.3 Bioaccumulative potential No data available 2.4 Mobility in soil No data available 12.5 PBT and vPvB assessment PBT/vPvB assessment was not conducted as chemical safety assessment is not required. 12.6 Other adverse effects No data available		
EC50 Photobacterium phosphoreum: 38.5 mg/l 12.2 Persistence and degradability No data available 2.3 Bioaccumulative potential No data available 2.4 Mobility in soil No data available 12.5 PBT and vPvB assessment PBT/vPvB assessment was not conducted as chemical safety assessment is not required. 12.6 Other adverse effects No data available		
 12.2 Persistence and degradability No data available 2.3 Bioaccumulative potential No data available 2.4 Mobility in soil No data available 12.5 PBT and vPvB assessment PBT/vPvB assessment was not conducted as chemical safety assessment is not required. 12.6 Other adverse effects No data available 		
No data available 2.3 Bioaccumulative potential No data available 2.4 Mobility in soil No data available 12.5 PBT and vPvB assessment PBT/vPvB assessment was not conducted as chemical safety assessment is not required. 12.6 Other adverse effects No data available		Leso Filotobacterium pilosphoreum. 56.5 mg/1
 No data available 2.3 Bioaccumulative potential No data available 2.4 Mobility in soil No data available 12.5 PBT and vPvB assessment PBT/vPvB assessment was not conducted as chemical safety assessment is not required. 12.6 Other adverse effects No data available 		12.2 Persistence and degradability
 2.3 Bioaccumulative potential No data available 2.4 Mobility in soil No data available 12.5 PBT and vPvB assessment PBT/vPvB assessment was not conducted as chemical safety assessment is not required. 12.6 Other adverse effects No data available 		
 No data available 2.4 Mobility in soil No data available 12.5 PBT and vPvB assessment PBT/vPvB assessment was not conducted as chemical safety assessment is not required. 12.6 Other adverse effects No data available 		
 2.4 Mobility in soil No data available 12.5 PBT and vPvB assessment PBT/vPvB assessment was not conducted as chemical safety assessment is not required. 12.6 Other adverse effects No data available 		
No data available 12.5 PBT and vPvB assessment PBT/vPvB assessment was not conducted as chemical safety assessment is not required. 12.6 Other adverse effects No data available		
 12.5 PBT and vPvB assessment PBT/vPvB assessment was not conducted as chemical safety assessment is not required. 12.6 Other adverse effects No data available 		
PBT/vPvB assessment was not conducted as chemical safety assessment is not required. 12.6 Other adverse effects No data available		2.4 Mobility in soil
12.6 Other adverse effects No data available		2.4 Mobility in soil No data available
No data available		 2.4 Mobility in soil No data available 12.5 PBT and vPvB assessment
		 2.4 Mobility in soil No data available 12.5 PBT and vPvB assessment PBT/vPvB assessment was not conducted as chemical safety assessment is not required.
Section 13 Disposal Considerations		 2.4 Mobility in soil No data available 12.5 PBT and vPvB assessment PBT/vPvB assessment was not conducted as chemical safety assessment is not required. 12.6 Other adverse effects
Section 13 Disposal Considerations		 2.4 Mobility in soil No data available 12.5 PBT and vPvB assessment PBT/vPvB assessment was not conducted as chemical safety assessment is not required. 12.6 Other adverse effects
		 2.4 Mobility in soil No data available 12.5 PBT and vPvB assessment PBT/vPvB assessment was not conducted as chemical safety assessment is not required. 12.6 Other adverse effects No data available

	13.1 Waste treatments methods
	Product
	Offer surplus and non-recyclable solutions to a licenced disposal company. Contact a
	licenced professional waste disposal service to dispose off this material.
	13.2 Contaminated packaging
	Dispose of as unused product.
Section 14	Transport Information
	14.1 UN-No
	ADNR:1687 ADR:1687 IATA_C:1687 IATA_P:1687 IMDG:1687 RID:1687
	14.2 UN proper shipping name
	ADNR : Sodium azide
	ADR : Sodium azide
	IATA_C : Sodium azide
	IATA_P : Sodium azide
	IMDG : Sodium azide
	RID : Sodium azide
	14.3 Transport hazard class(es)
	ADNR : 6.1 ADR : 6.1 IATA_C : 6.1 IATA_P : 6.1 IMDG : 6.1 RID : 6.1
	14.4 Packaging group
	ADNR : II ADR : II IATA_C : II IATA_P : II IMDG : II RID : II
	14.5 Environmental hazards
	ADNR : No ADR : No IMDG : Marine pollutant No IATA_C : No IATA_P : No RID : No
	14.6 Special precautions for use
	No data available
Section 15	Regulatory Information
	This safety datasheet complies with the requirements of Regulation(EC) No. 1907/2006.
	15.1 Safety health and environment regulations/legislation specific for the substance or mixture
	No data available
	15.2 Chemical Safety Assessment
	No data available
Section 16	Other Information

Material Safety Data Sheet

Text of H codes and classification mentioned in section 3		
H300	Fatal if swallowed	
H310	Fatal in contact with skin	
H315	Causes skin irritation	
H319	Causes serious eye irritation	
H335	May cause respiratory irritation	
H400	Very toxic to aquatic life	
H410	Very toxic to aquatic life with long lasting effects	
Acute Tox. 1	Acute toxicity, dermal, Category 1	
Acute Tox.oral. 2	Acute toxicity, oral, Category 2	
Aquatic Acute 1	Hazardous to the aquatic environment, acute hazard, Category 1	
Aquatic Chronic 1	Hazardous to the aquatic environment, long term hazard, Category 1	
Eye Irrit. 2A	Serious eye damage or eye irritation, Category 2A	
Skin Irrit. 2	Skin corrosion or irritation, Category 2	
STOT SE 3	Specific target organ toxicity, single exposure, Respiratory tract irritation, Category 3	
Further Information		
The information contained in this data sheet represents the best information currently available to us. However, no warrant is made with respect to its completeness and we assume no liability resulting from its use. The information is offered solely for user's obligation to investigate and determine the suitability of the information for their particular purpose.
