

Name of the Product LCN Supplement

Code No. MS 2338

Section 1 : Chemical Identification

Code No. : MS 2338

Name of the Product : LCN Supplement

Produced by : Central Drug House Pvt. Ltd.

Address : 7/28 Vardaan House, Darya Ganj, New Delhi (INDIA)

Tel. No. : 00 91 11 49404040

Section 2 Hazards Identification

2.1 Classification of the substance or mixture

CLP Classification-Regulation (EC) No. 1272/2008[EU-GHS/CLP]

Acute toxicity, Oral, (Category 1), H300 Skin corrosion or irritation, (Category 2), H315 Sensitisation, respiratory, (Category 1), H334 Germ cell mutagenicity, (Category 2), H341 Reproductive

toxicity, (Category 1A), H360D

Hazardous to the aquatic environment, long term hazard, (Category 2), H411

2.2 Label elements

Labeling according to Regulation (EC) No.1272/2008

Pictogram

Signal word Danger Hazard Statement(s)

H300 Fatal if swallowed

H341 Suspected of causing genetic defects

H315 Causes skin irritation

H334 May cause allergy or asthma symptoms or breathing difficulties if inhaled

H411 Toxic to aquatic life with long lasting effects

H360D May damage the unborn child

Precautionary Statement(s)

P201 Obtain special instructions before use.

P301+P312+P330 IF SWALLOWED: Call a POISON CENTER/doctor if you feel unwell. Rinse mouth.

P302 + P352 IF ON SKIN: wash with plenty of soap and water.

P332/P337 +P313 IF skin irritation/eye irritation persists: Get medical advice/attention.

P273 Avoid release to the environment.

2.3 Other Hazards

None

ction 3		formation On Ingredients					
	3.2 Mixture						
		Component	Classification	Concentration			
	Actidione (Cycl	oheximide)		-			
	CAS No. :	66-81-9	As Per EC Regulation 1272/2008	>=90 - <=100%			
	EC No. :	200-636-0	Acute Tox. oral. 1; Skin Irrit. 2; Muta. 2;

Section 6	Accidental Release Measures				
	6.1 Personal precautions, protective equipment and emergency procedures Wear respiratory protection. Avoid breathing vapours, mist or gas. Ensure adequate				
	ventilation. Evacuate personnel to safe areas. 6.2 Environmental precautions Prevent further leakage or spillage if safe to do so. Do not let product enter drains.				
	6.3 Methods and materials for containment and cleaning up Soak up with inert absorbent material. Keep in suitable, closed containers for disposal.				
	6.4 Reference to other sections For disposal see Section 13.				
Section 7	Handling and Storage				
	7.1 Precautions for safe handling Avoid contact with skin and eyes. Avoid inhalation of vapour or mist. Normal measures for preventive fire protection.				
	7.2 Conditions for safe storage, including any incompatibilities Store in cool place. Keep container tightly closed in a dry and well-ventilated place. Containers which are opened must be carefully resealed and kept upright to prevent leakage.				
	 Recommended Storage Temperature: On receipt store between 2-8°C 7.3 Specific end uses Apart from the uses mentioned in section 1.2 no other specific uses are stipulated. 				
Section 8	Exposure Controls / Personal Protection				
	8.1 Control parameters				
	Components with workplace control parameters 8.2 Exposure controls Appropriate engineering controls				
	Avoid contact with skin, eyes and clothing. Wash hands before breaks and immediately after handling the products. Personal protective equipment Hygiene measure Immediately change contaminated clothing. Apply preventive skin protection. Wash hands and face after				
	working with the product. Eye/face protection				
	Tightly fitting saftey goggles; Faceshield (8-inch minimum). Use equipment for eye protection tested and approved under appropriate government standards such as NIOSH (US) or EN 166 (EU). Skin protection				
	Handle with gloves. Gloves must be inspected prior to use. Use proper glove removal technique (without touching glove's outer surface) to avoid skin contact with this product. Dispose contaminated gloves after use in accordance with applicable laws and good laboratory practices. Wash and dry hands. The selected protective gloves have to satisfy the specifications of EU Directive 89/686/EEC and the standard EN 374 derived from it.				
	Body protection				
	Complete suit protecting against chemicals. The type of protective equipment must be selected according to the concentration and amount of the dangerous substance at the specific workplace. Respiratory protection				
	Where risk assessment shows air-purifying respirators are appropriate use a full-face respirator with multi-purpose combination (US) or type ABEK (EN 14387) respirator cartridges as a backup to engineering controls. If the respirator is the sole means of protection, use a full-face supplied air respirator. Use respirators and components tested and approved under appropriate government standards such as NIOSH (US) or CEN (EU). <i>Environment exposure controls</i>				
	Do not empty into drains.				

Section 9	Physical and Chemical Properties 9.1 Information on basic physical and chemical properties				
		Appearance	White homogeneous powder		
		Odour	No data available		
		Odour Threshold	No data available		
		рН	No data available		
		Melting/freezing point	No data available		
		Initial boiling point and boiling range	No data available		
		Flash point	No data available		
		Flammability (Solid, gas)	No data available		
		Vapour pressure	No data available		
		Relative density	No data available		
		Water Solubility	No data available		
		Partition coefficient: n-octanol/water	No data available		
		Autoignition Temperature	No data available		
		Viscosity	No data available		
		Explosive properties	No data available		
		Oxidizing properties	No data available		
		Vapour density	No data available		
		Thermal decomposition	No data available

Additional Information

RTECS: no data available

11.2 Components

Cycloheximide

Acute oral Toxicity

Rat LD50: 2mg.kg

Skin Corrosion/Irritation

Skin-rabbit Result: Skin irritation: 24 h

Germ cell mutagenicity

Lab experiments have shown

mutagenic effects. Invitro tests

showed mutagenic effects.

Reproductive toxicity

May cause congenital

malformation in the fetus.

Presumed human reproductive

toxicant.

Liver-irregularities-based on human evidence.

Additional Information

RTECS:MA4375000

Section 12 | Ecological Information

12.1 Toxicity

No data available

12.2 Persistence and degradability

No data available

12.3 Bioaccumulative potential

No data available

12.4 Mobility in soil

No data available
