Conditions to avoid: Heat and light. Hazardous polymerization will not occur. Section 11 Toxicological Information Acute Effects: May be harmful if swallowed. Exposure can cause: Stomach pains, vomiting, diarrhoea. Prolonged or repeated exposure may cause allergic reactions in certain sensitive individuals.						
Colour: Light yellow to greenish yellow. Section 10 Stability and Reactivity Stability: Product is stable if stored as per the conditions specified under storage of Section No. 7. Product loses its potency/performance above 45°C. Conditions to avoid: Heat and light. Hazardous polymerization will not occur. Section 11 Toxicological Information Acute Effects: May be harmful if swallowed. Exposure can cause: Stomach pains, vomiting, diarrhoea. Prolonged or repeated exposure may cause allergic reactions in certain sensitive individuals.	Section 9	Physical and Chemical Properties
