|  | Hazard : Oxidizing substances can ignite combustible material or worsen existing fires and thus make fire-fighting more difficult.                                                                                                                                                                                                                                                                                                                                                                                                       |                                     |                                                   |
|                                                                                     | Caution : Keep away from combustible material.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |                                     |                                                   |
|  | Hazard : This symbol designates substances which may have an irritant effect on skin, eyes and respiratory organs.                                                                                                                                                                                                                                                                                                                                                                                                                       |                                     |                                                   |
|                                                                                     | Caution : Do not breathe vapours and avoid contact with skin and eyes.                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |                                     |                                                   |
|  | Hazard : Inhalation and ingestion of, or skin penetration by these substances is harmful to one's health. Non-recurring, recurring or lengthy exposure to these substances may result in irreversible damage.                                                                                                                                                                                                                                                                                                                            |                                     |                                                   |
|                                                                                     | Caution : Avoid contact with the human body, including inhalation of the vapours and in cases of malaise consult a doctor.                                                                                                                                                                                                                                                                                                                                                                                                               |                                     |                                                   |
| Section 4                                                                           | <b>First - Aid Measures</b>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |                                     |                                                   |
|                                                                                     | In case of swallowing, wash out mouth with water provided person is conscious. In case of skin contact, flush with copious amounts of water for at least 15 minutes. Remove contaminated clothing and shoes. In case of inhalation, remove to fresh air. If breathing becomes difficult, call physician. In case of contact with eyes, wash with copious amounts of water for at least 15 minutes. Assure adequate washing by separating the eyelids with fingers. In serious conditions, call a physician, show the container or label. |                                     |                                                   |
| Section 5                                                                           | <b>Fire Fighting Measures</b>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |                                     |                                                   |
