|  | <p><b>8.1 Control parameters</b></p> <p><b>8.2 Exposure controls</b><br/><b>Appropriate engineering controls</b><br/>Handle in accordance to general industrial hygiene and safety practice. Wash hands before breaks and immediately after handling the products.</p> <p><b>Personal protective equipment</b><br/><b>Eye/face protection</b><br/>Safety glasses with side-shields conforming to EN 166 Use equipment for eye protection tested and approved under appropriate government standards such as NIOSH (US) or EN 166 (EU). Have eye washing facilities readily available where eye contact can occur.</p> <p><b>Skin protection</b><br/>Handle with gloves. Gloves must be inspected prior to use. Use proper glove removal technique (without touching glove's outer surface) to avoid skin contact with this product. Dispose contaminated gloves after use in accordance with applicable laws and good laboratory practices. Wash and dry hands. The selected protective gloves have to satisfy the specifications of EU Directive 89/686/EEC and the standard EN 374 derived from it.</p> <p><b>Body protection</b><br/>Complete suit protecting against chemicals. The type of protective equipment must be selected according to the concentration and amount of the dangerous substance at the specific workplace.</p> <p><b>Respiratory protection</b><br/>Where risk assessment shows air-purifying respirators are appropriate use a full-face particle respirator type N100 (US) or type P3 (EN 143) respirator cartridges as a backup to engineering controls. Use respirators and components tested and approved under appropriate government standards such as NIOSH (US) or CEN (EU).</p> <p><b>Environment exposure controls</b><br/>Prevent further leakage or spillage if safe to do so. Do not let product enter drains. Discharge into the environment must be avoided.</p> |            |  |       |                   |                 |                   |    |           |                        |                   |   |                   |             |                   |  |                   |                  |                   |                           |                   |                 |                   |                  |                   |                  |                  |

|  |   |
|--|---|
| H319   | Causes serious eye irritation   |
| H334   | May cause allergy or asthma symptoms or breathing difficulties if inhaled                 |
| H335   | May cause respiratory irritation  |
| H341   | Suspected of causing genetic defects  |
| H350i  | May cause cancer by inhalation  |
| H360   | May damage fertility or the unborn child  |
| H360F  | May damage fertility  |
| H373   | May cause damage to organs through prolonged or repeated exposure                         |
| H410   | Very toxic to aquatic life with long lasting effects                                      |
| H411   | Toxic to aquatic life with long lasting effects   |
| Acute Tox.oral 4   | Acute toxicity, oral, Category 4  |
