Take off immediately all contaminated clothing. In all cases of doubt, or when symptoms persist, seek medical advice. In case of unconsciousness place person in the recovery position. Never give anything by mouth. Following inhaled If breathing is irregular or stopped, immediately seek medical assistance and start first aid actions. Provide fresh air . Following skin contact Wash off with soap and plenty of water. If skin irritation occurs,get medical advice/attention. Following eye contact Remove contact lenses, if present and easy to do. Continue rinsing. Irrigate copiously with clean, fresh water for at least 10 minutes, holding the eyelids apart Following Ingestion Rinse mouth with water (only if the person is conscious). Do not induce vomiting.

Ground/bond container and receiving equipment. Specific notes/details Dust deposits may accumulate on all deposition surfaces in a technical room. The product in the delivered form is not dust explosion capable; the enrichment of fine dust however leads to the danger of dust explosion. Advice on general occupational hygiene Wash hands after use. Do not eat, drink and smoke in work areas. Remove contaminated clothing and protective equipment before entering eating areas. Never keep food or drink in the vicinity of chemicals. Never place chemicals in containers that are normally used for food or drink. Keep away from food, drink and animal feeding stuffs.</p> <p>7.2 Conditions for safe storage, including any incompatibilities Managing of associated risks Explosive atmospheres</p>
