

	Name of the P	roduct	Nutrient Mixture F-12 Ham, Coon's Modification;			
			w/ L-Glutamine; w/o Sodium bicarbonate			
Code No.			AT1146			
Section 1 :	Chemical Ident					
	Code No. :		-			
	Name of the Product		Nutrient Mixture F-12 Ham, Coon's Modification;			
	Produced :		w/ L-Glutamine; w/o Sodium bicarbonate Central Drug House Pvt. Ltd.			
	Address		7/28 Vardaan House, Darya Ganj, New Delhi (INDIA)			
	Tel. No.		00 91 11 49404040			
Section 2	Hazards Identifi	cation	00 51 11 45404040			
	2.1 Classification of the substance or mixture					
	Classification according to Regulation (EC) No. 1272/2008 [CLP]					
	This mixture does not meet the criteria for classification in accordance with Regulation No 1272/2008/EC					
	1	272720007LC				
	2.2 L	abel elements				
	Labelling according to Regulation (EC) No 1272/2008 (CLP)					
		lot required				
		2.3 Other Hazards				
	l (	Of no significance				
Section 3	Composition (Information On Ingradiante					
Section 5	Composition/Information On Ingredients 3.1 Substances					
			ture)			
	Not relevent (mixture) 3.2 Mixtures					
	Description of the mixture					
	This product does not meet the criteria for classification in any hazard class according to GHS					
Section 4						
Section 4	First - Aid Measures       4.1     Description of first aid measures					
		eneral advice				
	-		cted person unattended. Remove victim out of the danger area. Keen affected			
	Do not leave affected person unattended. Remove victim out of the danger area. Keep affected person warm, still and covered. Take off immediately all contaminated clothing. In all cases of doubt,					
			ns persist, seek medical advice. In case of unconsciousness place person in the			
	r	ecovery position	n. Never give anything by mouth.			
	F	ollowing inhaled				
		If breathing is in	regular or stopped, immediately seek medical assistance and start first aid actions.			
		Provide fresh ai				
		ollowing skin cor				
			ap and plenty of water. If skin irritation occurs, get medical advice/attention.			
		ollowing eye con				
			: lenses, if present and easy to do. Continue rinsing. Irrigate copiously with clean, fresh			
		ollowing Ingestic	st 10 minutes, holding the eyelids apart			
			th water (only if the person is conscious). Do not induce vomiting.			
	4.2 N		ymptoms and effects, both acute and delayed			
		-	fects are not known till date.			
			rediate medical attention and special treatment needed			
		lone				

Section 5	Fire Fighting Measures				
	<ul> <li>5.1 Extinguishing media         <ul> <li>Suitable extinguishing media</li></ul></li></ul>				
Section 6	Accidental Release Measures				
	<ul> <li>6.1 Personal precautions, protective equipment and emergency procedures         <i>For non-emergency personnel</i>         Remove persons to safety.         <i>For emergency responders</i>         Wear breathing apparatus if exposed to vapours/dust/spray/gases</li> </ul>				
	6.2 Environmental precautions Keep away from drains, surface and ground water. Retain contaminated washing water and dispose of it.				
	<ul> <li>6.3 Methods and materials for containment and cleaning up         <ul> <li>Advice on how to contain a spill</li> <li>Covering of drains, Take up mechanically</li> <li>Advice on how to clean up a spill</li> <li>Take up mechanically</li> <li>Other information relating to spills and releases.</li> <li>Place in appropriate containers for disposal. Ventilate affected area.</li> </ul> </li> <li>6.4 Reference to other sections</li> </ul>				
	Personal protective equipment: see section 8. Incompatible materials: see section 10. Disposal considerations: seesection 13.				
Section 7	Handling and Storage				
	<ul> <li>7.1 Precautions for safe handling         <i>Recommendations</i>         Measures to prevent fire as well as aerosol and dust generation.         Use local and general ventilation. Use only in well-ventilated areas. Ground/bond container and receiving         equipment.         <i>Specific notes/details</i>         Dust deposits may accumulate on all deposition surfaces in a technical room. The product in the delivered         form is not dust explosion capable; the enrichment of fine dust however leads to the danger of dust         explosion.         <i>Advice on general occupational hygiene</i>         Wash hands after use. Do not eat, drink and smoke in work areas. Remove contaminated clothing and         protective equipment before entering eating areas. Never keep food or drink in the vicinity of chemicals.         Never place chemicals in containers that are normally used for food or drink. Keep away from food,         drink and animal feeding stuffs.         <b>7.2 Conditions for safe storage, including any incompatibilities</b> <i>Precedent and state are including any incompatibilities Precedent areas areas and street and street areas Precedent areas area</i></li></ul>				
	Managing of associated risks Explosive atmospheres				

	<ul> <li>Removal of dust deposits.</li> <li>Specific designs for storage rooms or vessels</li> <li>Storage temperature -Recommended storage temperature: 2 – 8 °C</li> <li>Packaging compatibilities</li> <li>Only packagings which are approved (e.g. acc. to ADR) may be used.</li> <li>7.3 Specific end uses</li> <li>See section 16 for a general overview.</li> </ul>					
Section 8	Exposure Controls / Personal Protection					
	8.1 Control parameters					
	8.2	This information is not available. Exposure controls				
		recommended. Wash hands thoroughly afte <b>Respiratory protection</b> In case of inadequate ventilation wear respir <b>Environment exposure controls</b>	Preventive skin protection (barrier creams/ointments) is r handling.			
Section 9	-	d Chemical Properties				
		nformation on basic physical and chemical proper				
		hysical state olour	solid White to light pink, homogenous powder			
		)dour	characteristic			
		All ting point/freezing point	not determined			
		oiling point or initial boiling point and boiling				
		ange	not determined			
		lammability	non-combustible			
		ower and upper explosion limit	not determined			
		lash point	not applicable			
		uto-ignition temperature	not determined not relevant			
		ecomposition temperature H (value)	not applicable			
		inematic viscosity	not relevant			
		olubility (ies)				
		Vater solubility	miscible in any proportion			
	Р	artition coefficient				
		artition coefficient n-octanol/water (log value)	this information is not available			
		apour pressure	not determined			
		ensity and/or relative density	not determined			
		ensity elative vapour density	not determined information on this property is not available			
		article characteristics	no data available			
	·					

	9.2 Other safety information Information with regard to physical hazardclasses: Hazard classes acc. to GHS (physical hazards):not relevant Miscibility : Completely miscible with water Solvent content: 0% Solid content: 0%				
Section 10	Stability and Reactivity				
	<ul> <li>10.1 Reactivity         Concerning incompatibility: see below "Conditions to avoid" and "Incompatible materials".</li> <li>10.2 Chemical stability         The material is stable under normal ambient and anticipated storage and handling conditions of</li> </ul>				
	temperature and pressure.  10.3 Possibility of hazardous reactions No known hazardous reactions  10.4 Conditions to avoid				
	There are no specific conditions known which have to be avoided. Hints to prevent fire or explosion				
	The product in the delivered form is not dust explosion capable; the enrichment of fine dust however leads to the danger of dust explosion. <b>10.5 Incompatible materials</b>				
	10.5 Incompatible materials There is no additional information 10.6 Hazardous decomposition products				
	Reasonably anticipated hazardous decomposition products produced as a result of use, storage, spill and heating are not known. Hazardous combustion products: see section 5.				
Section 11	Toxicological Information				
	11.1 Information on toxicological effects				
	Test data are not available for the complete mixture.				
	<b>Classification procedure</b> The method for classification of the mixture is based on ingredients of the mixture (additivity formula).				
	Classification according to GHS (1272/2008/EC, CLP) This mixture does not meet the criteria for classification in accordance with Regulation No 1272/2008/EC. Acute toxicity				
	Shall not be classified as acutely toxic <i>Skin corrosion/irritation</i> Shall not be classified as corrosive/irritant to skin				
	Serious eye damage/eye irritation Shall not be classified as seriously damaging to the eye or eye irritant				
	<b>Respiratory or skin sensitisation</b> Shall not be classified as a respiratory or skin sensitiser <b>Germ cell mutagenicity</b>				
	Shall not be classified as germ cell mutagenic <b>Carcinogenicity</b>				
	Shall not be classified as carcinogenic Reproductive toxicity				
	Shall not be classified as a reproductive toxicant <b>Specific target organ toxicity- single exposure</b> Shall not be classified as a specific target organ toxicant (single exposure).				
	Specific target organ toxicity - repeated exposure Shall not be classified as a specific target organ toxicant (repeated exposure). Aspiration hazard				
	Shall not be classified as presenting an aspiration hazard. <b>11.2</b> Information on other hazards				
	There is no additional information				

Section 12	Ecological Information		
	12.1 Toxicity		
	No data available		
	12.2 Persistence and degradability		
	Biodegradation		
	The relevant substances of the mixture are readily biodegradable		
	12.3 Bioaccumulative potential		
	No data available		
	12.4 Mobility in soil		
	No data available		
	12.5 PBT and vPvB assessment		
	No data available		
	12.6 Endocrine disrupting properties		
	Information on this property is not available		
	12.7 Other adverse effects		
	No data available		
Section 13	Disposal Considerations		
	13.1 Waste treatments methods		
	Sewage disposal-relevant information		
	Do not empty into drains. Avoid release to the environment. Refer to special instructions/safety data		
	sheets.		
	Waste treatment of containers/packagings		
	It is a dangerous waste; only packagings which are approved (e.g. acc. to ADR) may be used. Completely		
	It is a dangerous waste; only packagings which are approved (e.g. acc. to ADR) may be used. Completely emptiedpackages can be recycled. Handle contaminated packages in the same way as the substance		
	It is a dangerous waste; only packagings which are approved (e.g. acc. to ADR) may be used. Completely emptiedpackages can be recycled. Handle contaminated packages in the same way as the substance itself.		
	It is a dangerous waste; only packagings which are approved (e.g. acc. to ADR) may be used. Completely emptiedpackages can be recycled. Handle contaminated packages in the same way as the substance itself. <i>Remarks</i>		
	It is a dangerous waste; only packagings which are approved (e.g. acc. to ADR) may be used. Completely emptiedpackages can be recycled. Handle contaminated packages in the same way as the substance itself.		
Section 14	It is a dangerous waste; only packagings which are approved (e.g. acc. to ADR) may be used. Completely emptiedpackages can be recycled. Handle contaminated packages in the same way as the substance itself. <b>Remarks</b> Please consider the relevant national or regional provisions. Waste shall be separated into the categories that can be handled separately by the local or national waste management facilities.
