Co-ordinate firefighting measures to the fire surroundings. Do not allow firefighting water to enter drains or water courses. Collect contaminated firefighting water separately.         Fight fire with normal precautions from a reasonable distance.</li> </ul>		
Section 6	Accidental Release Measures		
	6.1 Personal precautions, protective equipment and emergency procedures  For non-emergency personnel  Remove persons to safety.  For emergency responders  Wear breathing apparatus if exposed to vapours/dust/spray/gases  6.2 Environmental precautions  Keep away from drains, surface and ground water. Retain contaminated washing water and dispose of it.  6.3 Methods and materials for containment and cleaning up  Advice on how to contain a spill  Covering of drains, Take up mechanically  Advice on how to clean up a spill  Take up mechanically  Other information relating to spills and releases.  Place in appropriate containers for disposal. Ventilate affected area.  6.4 Reference to other sections  Personal protective equipment: see section 8. Incompatible materials: see section 10.

Section 7	Handling and Storage		
	<ul> <li>7.1 Precautions for safe handling         Recommendations         Measures to prevent fire as well as aerosol and dust generation.         Use local and general ventilation. Use only in well-ventilated areas. Ground/bond container and receiving equipment.         Specific notes/details         Dust deposits may accumulate on all deposition surfaces in a technical room. The product in the delivered form is not dust explosion capable; the enrichment of fine dust however leads to the danger of dust explosion.         Advice on general occupational hygiene         Wash hands after use. Do not eat, drink and smoke in work areas. Remove contaminated clothing and protective equipment before entering eating areas. Never keep food or drink in the vicinity of chemicals. Never place chemicals in containers that are normally used for food or drink. Keep away from food, drink and animal feeding stuffs.</li> <li>7.2 Conditions for safe storage, including any incompatibilities         Managing of associated risks         Explosive atmospheres</li> </ul>
