	4.1	Description of first aid measures			
		General advice			
		Do not leave affected person unattended. Remove victim out of the danger area. Keep affected person warm, still and covered. Take off immediately all contaminated clothing. In all cases of doubt, or when symptoms persist, seek medical advice. In case of unconsciousness place person in the recovery position. Never give anything by mouth.			
		Following inhaled  If breathing is irregular or stopped, immediately seek medical assistance and start first aid actions.  Provide fresh air.			
		Following skin contact Wash off with soap and plenty of water. If skin irritation occurs, get medical advice/attention.			
		Remove contact lenses, if present and easy to do. Continue rinsing. Irrigate copiously with clean, fresh			
		water for at least 10 minutes, holding the eyelids apart  Following Ingestion  Rinse mouth with water (only if the person is conscious). Do not induce vomiting.

	5.1 Extinguishing media Suitable extinguishing media Water, Foam, Alcohol resistant foam, ABC-powder Unsuitable extinguishing media Water jet  5.2 Special hazards arising from the substance or mixture No data available  . 5.3 Precautions for fire-fighters			
	In case of fire and/or explosion do not breathe fumes. Co-ordinate firefighting measures to the fire surroundings. Do not allow firefighting water to enter drains or water courses. Collect contaminated firefighting water separately.  Fight fire with normal precautions from a reasonable distance.			
Section 6	Accidental Release Measures			
	6.1 Personal precautions, protective equipment and emergency procedures  For non-emergency personnel  Remove persons to safety.  For emergency responders  Wear breathing apparatus if exposed to vapours/dust/spray/gases			
	6.2 Environmental precautions Keep away from drains, surface and ground water. Retain contaminated washing water and dispose of it.

Section 7	Handling and Storage			
	<ul> <li>7.1 Precautions for safe handling         Recommendations         Measures to prevent fire as well as aerosol and dust generation.         Use local and general ventilation. Use only in well-ventilated areas. Ground/bond container and receiving equipment.         Specific notes/details         Dust deposits may accumulate on all deposition surfaces in a technical room. The product in the delivered form is not dust explosion capable; the enrichment of fine dust however leads to the danger of dust explosion.         Advice on general occupational hygiene         Wash hands after use. Do not eat, drink and smoke in work areas. Remove contaminated clothing and protective equipment before entering eating areas. Never keep food or drink in the vicinity of chemicals. Never place chemicals in containers that are normally used for food or drink. Keep away from food, drink and animal feeding stuffs.</li> </ul>
