SODIUM CHLORITE		
PRODUCT CODE	218850	
SYNONYMS	-	
C.I. NO.	-	
CASR NO.	(7758-19-2)	
ATOMIC OR MOLECULAR FORMULA	NaClO ₂	
ATOMIC OR MOLECULAR WEIGHT	90.44	Nacio
PROPERTIES		NaClO ₂
	Slightly hygroscopic. Decomposes at 180°C - 200°C. Powerful oxidizer.	
PARAMETER	LIMIT	
Description	A white to off white crystalline powder.	
Solubility	10% solution in water is clear and colourless.	
Minimum Assay (lodometric titration)	80.0%	
Note(s) :Assay (if applicable) method men	tioned.	
DANGER		IMDG Code : 5.1/II
Hazard statements :May intensify fire; oxidize	r. Fatal if inhaled. Toxic if swallowed. Harmful in contact with skin	
damage the unborn child. May cause damage f	to organs through prolonged or repeated exposure. Causes sever	e skin IATA : 5.1
burns and eye damage. Very toxic to aquatic lif		
Precautionary statements		
	ist/vapours/spray. Wash hands thoroughly after handling.Do not	eat.
· · · · ·	ot breathe dust or mist. Wear protective gloves/ clothing Wear	
	ction. Wash thoroughly after handling.Do not handle until all safe	tv
	Detain special instructions before use. Wear respiratory protection	
	eep away from heat. Take any precaution to avoid mixing with	1.030
