Description Rose red colour paper strips.

pH Transition Range pH 3.0 to 5.2 Violet - Orange red

Sensitivity To pass the test.

pH-Indicator Papers:

Possible discolouration of the dry new papers may be caused by their high sensitivity against and pH action. This does not impair the efficiency of the Indicator Papers for pH determinations.

With very weakly buffered or unbuffered solutions, the so-called indicator error occurs. This may be compensated for up to a point in the following manner:

The strip is made to adhere to the inner wall of a test tube, which is then

filled to the upper edge of the paper with the fluid to be tested. After 1/2 to 1 minute, the colour of the

Note(s): Assay (if applicable) method mentioned.

DANGER
