

## Technical Information

### Phosphate Buffered Saline, pH 7.4, 1X With Phenol red

#### Product Code: TL2126

**Application:** All media used in tissue culture have a basis of a synthetic mixture of inorganic salts known as a physiological or balanced salt solution (BSS). All the physiological salt solutions have been derived from the salt solution originally described by Sydney Ringer (1885). The first balanced salt solution to be developed specifically for supporting the metabolism of mammalian cells was Tyrode's solution. Since then many modifications have been done to obtain better buffering salt solutions and to prevent calcium precipitation.

The function of a salt solution is:

- To maintain the medium within physiological pH range.
- To maintain intracellular and extra cellular osmotic balance.
- Modified with a carbohydrate, such as glucose serves as an energy source for cell metabolism.

TL2126 is 1X Phosphate Buffered Saline, pH 7.4. It does not contain calcium and magnesium and hence most commonly used for tissue disaggregation and monolayer dispersal since presence of calcium and magnesium ions may hinder the trypsin activity. It is also used for routine immunohistochemical testing and as a general purpose solution for washing cells in various hematological and molecular biology procedures.

#### Composition\*\*

Ingredients	mg / Litre
<b>INORGANIC SALTS</b>	
Disodium hydrogen phosphate anhydrous	795.000
Potassium dihydrogen phosphate	144.000
Sodium chloride	9000.000
<b>OTHERS</b>	
Phenol red sodium salt	11.000

#### Quality control

##### Appearance

Red coloured, clear solution

##### pH

7.35 – 7.45

##### Osmolality in mOsm/Kg H<sub>2</sub>O

280.00 – 320.00

##### Sterility

No bacterial or fungal growth is observed after 14 days of incubation, as per USP specification.

##### Toxicity test

Passes

##### Endotoxin Content

NMT 1EU/ml

### Storage and Shelf Life

Store at 15-30 °C away from bright light.

Shelf life is 24 months.

Use before expiry date given on the product label.

### Disclaimer :

- User must ensure suitability of the product(s) in their application prior to use.
- The product conforms solely to the technical information provided in this booklet and to the best of knowledge research and development work carried at **CDH** is true and accurate.
- **Central Drug House Pvt. Ltd.** reserves the right to make changes to specifications and information related to the products at any time.
- Products are not intended for human or animal diagnostic or therapeutic use but for laboratory, research or further manufacturing of diagnostic reagents extra.
