ATOMIC OR MOLECULAR FORMULASiO2ATOMIC OR MOLECULAR WEIGHT60.08PROPERTIESPARAMETERLIMITDescriptionFine, white homogenous powder free from foreign particles. SolubilitySolubility10% Suspension in water should be clear without floating part Particle size : Passing through 80 meshPassing through 100 meshMin. 95%Passing through 200 meshMax.15%SuitabilityPasses Test.	
C.I. NOCASR NO.(112926-00-8)ATOMIC OR MOLECULAR FORMULASiO2ATOMIC OR MOLECULAR WEIGHT60.08PROPERTIESPARAMETERLIMITDescriptionFine, white homogenous powder free from foreign particles.Solubility10% Suspension in water should be clear without floating partParticle size :100%Passing through 80 meshMin. 95%Passing through 200 meshMax.15%SuitabilityPasses Test.	
CASR NO.(112926-00-8)ATOMIC OR MOLECULAR FORMULASiO2ATOMIC OR MOLECULAR WEIGHT60.08PROPERTIESPARAMETERLIMITDescriptionFine, white homogenous powder free from foreign particles.Solubility10% Suspension in water should be clear without floating partParticle size :100%Passing through 80 meshMin. 95%Passing through 100 meshMax.15%SuitabilityPasses Test.	
ATOMIC OR MOLECULAR FORMULASiO2ATOMIC OR MOLECULAR WEIGHT60.08PROPERTIESPARAMETERLIMITDescriptionFine, white homogenous powder free from foreign particles. SolubilitySolubility10% Suspension in water should be clear without floating part Particle size :Passing through 80 mesh100%Passing through 100 meshMin. 95%Passing through 200 meshMax.15%	
ATOMIC OR MOLECULAR WEIGHT       60.08         PROPERTIES          PARAMETER       LIMIT         Description       Fine, white homogenous powder free from foreign particles.         Solubility       10% Suspension in water should be clear without floating part         Particle size :       100%         Passing through 80 mesh       Min. 95%         Passing through 100 mesh       Max.15%         Suitability       Passes Test.	
PROPERTIES          PARAMETER       LIMIT         Description       Fine, white homogenous powder free from foreign particles.         Solubility       10% Suspension in water should be clear without floating part         Particle size :       100%         Passing through 80 mesh       Min. 95%         Passing through 100 mesh       Max.15%         Suitability       Passes Test.	
PROPERTIES          PARAMETER       LIMIT         Description       Fine, white homogenous powder free from foreign particles.         Solubility       10% Suspension in water should be clear without floating part         Particle size :       100%         Passing through 80 mesh       Min. 95%         Passing through 100 mesh       Max.15%         Suitability       Passes Test.	$SiO_2$
DescriptionFine, white homogenous powder free from foreign particles.Solubility10% Suspension in water should be clear without floating partParticle size :100%Passing through 80 meshMin. 95%Passing through 100 meshMax.15%SuitabilityPasses Test.	
Solubility       10% Suspension in water should be clear without floating part         Particle size :       100%         Passing through 80 mesh       100%         Passing through 100 mesh       Min. 95%         Passing through 200 mesh       Max.15%         Suitability       Passes Test.	
Particle size : Passing through 80 mesh Passing through 100 mesh Passing through 200 mesh Suitability Passes Test.	
Passing through 80 mesh     100%       Passing through 100 mesh     Min. 95%       Passing through 200 mesh     Max.15%       Suitability     Passes Test.	cles/sediment.
Passing through 80 mesh Passing through 100 mesh Passing through 200 mesh Suitability Passes Test.	
Passing through 100 mesh Passing through 200 mesh Suitability Passes Test.	
Passing through 200 mesh Suitability Passes Test.	
Note(s) : Assay (if applicable) method mentioned.	
WARNING	IMDG Code:
Hazard statements : Causes eye irritation.	UN NO. :
Precautionary statements Prevention : Wash hands thoroughly after handling.	IATA :
<b>Response :</b> If eye irritation persists, get medical advice/attention.IF IN EYES: Rinse cautiously with water for several	
minutes. Remove contact lenses, if present and easy to do. Continue rinsing.	
<b>Disposal:</b> The waste chemical should be buried on a stage approved site .The liquids should be absorbed on sand This chemical can be disposed off as normal industrial waste.
