3,5-DINITRO SALICYLIC ACID FOR MOLECULAR BIOLOGY		
PRODUCT CODE	926780	
SYNONYMS		
C.I. NO.		
CASR NO.	609-99-4	9
ATOMIC OR MOLECULAR FORMULA	$C_7H_4N_2O_7$	O₂N
ATOMIC OR MOLECULAR WEIGHT	228.12	ОН
PROPERTIES	Store below 30°C	NO2
PARAMETER	LIMIT	
Description Solubility	White to yellow-Green powder. Soluble in alcohol.	
Minimum assay (HPLC/(NaOH Titration,	98.00 %	
on anhydrous basis)		
Melting range	168 - 174°C	
MAXIMUM LIMIT OF IMPURITIES		
Water (K.F.)	7.00%	
DNase, RNase	None detected	
Note(s): Assay (if applicable) method mentione	d.	
Precautionary statements Prevention: Avoid breathing dust/fume/gas/mist outdoors or in a well-ventilated area. Wear prote Response: IF INHALED: Remove to fresh air and k Rinse cautiously with water for several minutes. I rinsing. Call a POISON CENTER or doctor/physicia advice/attention. Disposal: Dissolve the chemical to be disposed, in	cion. Causes skin irritation. Causes serious eye irritation. C/vapours/spray. Wash thoroughly after handling. Use only ective gloves/protective clothing/eye protection/face protection. Greep at rest in a position comfortable for breathing. IF IN EYES: Remove contact lenses, if present and easy to do. Continue if you feel unwell. If eye irritation persists: Get medical The water and allow it to run to waste, diluting with large quantities be dissolved in water and transferred to heavy metal waste drums	IMDG Code : UN No. : IATA :
