CASR NO.(7440-50-8) CuATOMIC OR MOLECULAR FORMULA63.55ATOMIC OR MOLECULAR WEIGHTDuctile, excellent conductor of electricity, complexing agent. dissolves readily in nitric and hot concentrate sulfuric acids slowly.PROPERTIESLIMITPARAMETERLIMITDescriptionDistinctive reddish metallic turnings.Solubility5% solution in 32% i.e. 1:1 HNO3 is clear.MINIT99.5%MAXIMUM LIMIT OF IMPURITY0.05%Vate(s) : Assay (if applicable) method mentioned.0.05%	Cu
ATOMIC OR MOLECULAR FORMULA Cu ATOMIC OR MOLECULAR WEIGHT 63.55 PROPERTIES Ductile, excellent conductor of electricity, complexing agent. dissolves readily in nitric and hot concentrate sulfuric acids slowly. PARAMETER LIMIT Description Distinctive reddish metallic turnings. Solubility 5% solution in 32% i.e. 1:1 HNO ₃ is clear. Minimum Assay (lodometric) 99.5% MAXIMUM LIMIT OF IMPURITY 0.05% Substance insoluble in nitric acid 0.05%	Cu
ATOMIC OR MOLECULAR FORMULA Cu ATOMIC OR MOLECULAR WEIGHT 63.55 PROPERTIES Ductile, excellent conductor of electricity, complexing agent. dissolves readily in nitric and hot concentrate sulfuric acids slowly. PARAMETER LIMIT Description Distinctive reddish metallic turnings. Solubility 5% solution in 32% i.e. 1:1 HNO ₃ is clear. Minimum Assay (lodometric) 99.5% MAXIMUM LIMIT OF IMPURITY 0.05% Substance insoluble in nitric acid 0.05%	Cu

WARNING	IMDG Code :
Hazard statements: Causes mild skin irritation. Causes eye irritation. Harmful to aquatic life	UN No. :
Precautionary statements Prevention: Wash hands thoroughly after handling.	IATA :
Response: If skin irritation occurs, seek medical advice/attention. If eye irritation persists, get medical	
advice/attention. IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if presen	and
easy to do. Continue rinsing.	
Disposal: Dispose of contents and container in accordance with relevant legislation.	
Hazard Pictogram(s) :
